APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place of use and manner of use of a portion of the waters of Claim No. 754 of the Carson River as heretofore granted under the Final Carson River Decree No. D-183, in the District Court of the United States in and for the District of Nevada, is issued subject to the terms and conditions imposed in said Final Decree and with the understanding that no other rights on the source will be affected by the change proposed herein. A totalizing meter must be installed and accurate measurements of water placed to beneficial use must be kept.

The issuance of this permit is for the consumptive use portion only, being 2.5 acre-feet per acre of the base right. With the approval of this application, Claim 754 is reduced to 28.46 acres of irrigated lands and 79.74 acres are being removed from irrigation.

This permit changes the POD previously diverted from Segment 7a of the Carson River to Segment 7b, thus the priority date of this permit will be its filing date, March 22, 2002. No water shall be pumped from this induction well when the river is being regulated by the Federal Water Master.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer and Federal Water Master on a quarterly basis within 15 days after the end of each calendar quarter.

The total combined duty of water under Permits 68193, 68646 and 68647 shall not exceed 851.55 acre-feet annually.

The location and design of the induction well must be approved by the State Engineer prior to the drilling of the induction well.

(CONTINUED ON PAGE 3)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed as decreed cubic feet per second, but not to exceed 199.35 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before:

October 27, 2008

Proof of completion of work shall be filed before:

November 27, 2008

Water must be placed to beneficial use on or before:

October 27, 2013

Proof of the application of water to beneficial use shall be filed on or before:

November 27, 2013

Map in support of proof of beneficial use shall be filed on or before:

## 15. Remarks

This application is being filed along with two (2) others to change the point of diversion, manner and place of use of surface rights appurtenant to the Rolling "A" Ranch in Lyon County. Total combined duty of these three applications will not exceed 832.85 acre-feet. Water will be co-mingled with surface and groundwater rights under Permits 63623 through 63633 and Permit 66427 to provide municipal water service within the place of use. For proposed point of diversion, refer to map filed under Permit ~~63629~~ 63629. For proposed place of use, refer to map filed under Permit 62937. To illustrate the remaining 79.74 acres being removed from irrigation, refer to the map filed under Permit ~~63625~~ 63625. This application replaces Application 68194 which has been withdrawn.
